TALK CITY ADVERTISING

Several Propositions Considered
By Town Criers For Boost-
ing Bismarck

Town Criers of Bismarck will roll up their sleeves next Monday night and clean up the tourists auto camp at the penitentiary grounds east of the city.

At a dinner meeting of the club last night, on the McKenzie roof garden, it was reported that the camp was being used nightly by tourists traveling through Bismarck on various auto trails. The camp is supported by the club as an advertising feature for the city, and it is said by tourists to be one of the best camps found on the transcontinental National Park Highway.

The club members will drive to the camp equipped with hammers, saws, rakes and hoes and thoroughly clean the camp and put it in excellent shape. A wieners roast and visit with the tourists will follow the work. Members of the club and many citizens have made a practice of visiting the camp at various times and extending a welcome to the tourists on behalf of the city.

Talk City Advertising.

The club members discussing ways of advertising and boosting the city, talked over a number of propositions. A committee was named to offer, the Elks band the club co-operation in working out the band's problems. Although the band has loyally given services for many civic affairs without any compensation it is a difficult problem to finance the organization. The club also had been asked to take up a proposal to have a boys' band in the city as a "feeder" and a city orchestra, with the high school orchestra as the nucleus.

The question of agitating a "trade extension trip to various towns not covered in the trips last year was discussed, and will be considered by the club board of governors.

Most of the Town Criers are expected to go to Mandan next Tuesday night to attend the state convention of Town Criers clubs.

T. E. Allen, representative of the American College of Surgeons, which will hold a mass meeting in Bismarck at the auditorium on June 24 to disseminate information regarding public health, spoke to the Town Criers of the importance of health in the city. He mentioned that recently it had come to his knowledge that a large Chicago concern was planning a branch factory in a southern city about the size of Bismarck, and that the city which was most favorably considered at first and which appeared the logical place, lost the factory because it had a bad health record due to general lack of interest in sanitary conditions.

Eleven new members, elected to membership in the organization, were initiated last night. They are: F. A. Wehner, Wm. C. Paulson, M. E. Gilman, P. A. Knowles, O. B. Olson, F. J. Grady, Phillip M. Webb, R. S. Gross, Dr. W. E. Cole, Dr. R. S. Towne, and Benton Baker.

GIVES SAVINGS
TO POOL FUNDBismarck Boy Makes Sacrifice
For Swimming Pool

Children of the city continue to add money to the swimming pool fund. A splendid case of self-denial is reported by a member of the committee. One little boy gave \$2 to the fund. His brother was drowned while swimming in a stream near the city a couple of years ago. The boy was saving his money to buy a saxophone, but he parted with \$3 at his savings to help build the swimming pool, and perhaps save the life of some other boy's brother.

Ten dollars was contributed to the fund by Imogene Ward, 8 years old, and her brother, Steven, 6 years old, son and daughter of Mr. and Mrs. R. D. Ward, of Minnewaukan. They were visiting with their parents at the home of Mr. and Mrs. Burt Finney and they, becoming enthused over the idea, wanted to do something to help the boys and girls of Bismarck.

BOY BANDIT SENTENCED

Minnewaukan, N. D., June 16.—Lorance Nolan, the 19-year-old Tokio "bank robber" who, masked in a white handkerchief, rode up to the State bank of Tokio and in broad daylight held up the bank with an antiquated revolver, and secured a small sum of money, only to be traced and captured a few hours later at his home south of Tokio, pleaded guilty to the bank robbing charge against him at the regular term of district court for Benson county here. He was sentenced to the state training school at Mandan until 1924, when he will be 21.

He was remanded to the charge of his father and his attorney to be delivered to the Mandan school.

MOTHER KILLS BEAR AND SAVES TWINS

MRS. RAINWATER AND HER TWIN SONS.

By Newspaper Enterprise.

Marion, Mont., June 16.—"I had to kill the bear or lose my babies—so I killed the bear."

That is Mrs. Agnes Gerlach Rainwater's explanation of her success in firing three rifle bullets into a black bear which appeared suddenly where her twin sons were playing on her homestead at Lost Prairie.

The bear came out of the brush and scrambled over the fence into the yard, cutting off the children from the house. I ran inside and seized a rifle which my uncle had left.

"I had never used it, but I knew something of the way it worked from seeing my uncle fire it. I knew it was loaded."

"When I got back to the yard the boys had backed into a corner, so frightened they could not move. The bear had risen on its hind legs and was walking toward them."

"I ran around in front of the bear, pointed the rifle at its middle and began to shoot, while my boys clung to my skirts. When my uncle came he said any one of the three bullets would have killed it."

CATTLE LOANS
WILL BE MADE
SAYS MELLONSecretary of Treasury Announ-
ces Success of Confer-
ences

Washington, June 16.—Arrangements under which eastern and western bankers will provide a \$50,000,000 fund for loans to cattle raisers probably will be completed within the next few days, Secretary Mellon said today. The western bankers agreed at a meeting at Chicago yesterday to provide \$25,000,000 to the fund, he added.

A committee of bankers will administer the fund and advances probably will be made through bankers from the cattle growing section who are familiar with conditions.

With the completion of the pooling arrangements, Mr. Mellon said, the government's part in relief measures for the cattle industry, would cease.

BOND SALE COST
IS \$32,324.42Amount Paid Out in Three
Months By State

A total of \$32,324.42 has been paid out of the industrial Commission funds in the last three months, by state officials in the bond sale campaign. The amount increased yesterday when warrants for the "Bank of North Dakota, George Webb," dated June 11, were paid. There were two warrants, one for \$7,050.67 and \$4,214.04. Mr. Webb is the representative of the Bank of North Dakota at its Chicago bond office.

The expenses include advertising, expenses for payments to bond salesman, office rent, traveling expenses and salaries.

Sometime ago the Bank of North Dakota assigned real estate mortgages of various counties to the state treasurer, preparatory to issuing bonds. No bonds have been issued as yet and state officials decline to make official announcement on the progress of the bond sale.

SHIP DESTINED FOR IRELAND
PORT; INVESTIGATION IS BEGUN

New York, June 16.—An investigation was under way today to determine how and why more than 5,000 machine guns, with hundreds of parts, were received on board the steamer Bagdad while at her pier in Hoboken awaiting departure for an Irish port. Officials of the customs have, with the department of justice and the United States Shipping board, begun checking up on the facts in an effort to discover to whom the weapons were intended to be shipped and ordered them to be placed on the vessel.

ASKS GUARDING
OF U. S. ACTIONS

Providence, R. I., June 16.—Secretary of State Charles E. Hughes told a gathering of fellow alumni of Brown university yesterday that it was not desirable that America's helpful influence should be frittered away by relating ourselves unnecessarily to political questions which involve rivalry of interest abroad with which we have no proper concern.

BANKERS TALK
LIVESTOCK AIDSecretary Mellon Confers With
Chicago Financiers

Chicago, June 16.—Bankers of Chicago and the middle west conferred today on a proposed loan fund of \$25,000,000, sought to finance western stock raisers. The financiers were called together by Secretary of the Treasury Mellon under the leadership of John R. Mitchell, of the Federal Reserve Board. Chicago bankers expressed the opinion that the proposed pool was a financial venture. "Banks cannot gamble," David B. Morgan, head of the National City Bank said, adding that one of the difficulties of the proposal was that the collateral offered by cattle men were usually not liquid.

WOMAN SPEAKS
ON POLITICSSecretary of Committee of 48
To Visit Bismarck

Miss Melinda Alexander, national secretary of the Committee of 48, which is behind the organization of a new political party in America, will speak in Bismarck Friday night at 8:30 at Patterson hall.

Miss Alexander will discuss national issues of the day. She formerly was secretary to Miss Jeanette Rankin, of Montana, first woman congressman, and was active in the Committee of 48 convention in Chicago last year.

The meeting will be open to the public and no charge will be made, it is announced.

ports

COVERS A WIDE AREA

Rain General Over State But
Heaviest in West and
South

Rain has fallen in nearly all parts of the state in the last twenty-four hours, but was particularly heavy in the western part of the state, in sections where it was most needed, according to detailed reports of the United States Weather Bureau, today.

The heaviest rainfall of yesterday reported by the bureau representatives was at Dunn Center, where two inches of rain fell. At Dickinson the rainfall amounted to 1.52 inches, in a short period, and at Napoleon, south of Bismarck, the rain was 1.60 inches.

Slightly less than a half inch of rainfall fell at Bismarck this morning. This rain has augmented the rainfall of yesterday in most sections of the western part of the state, it is believed.

No Hail Is Reported.

According to weather bureau notices the heavy rain of yesterday was not accompanied by hail or by an exceedingly high wind.

The rainfall for the various stations in the state up to 7 A. M. today follows:

Amelia, .52; Bismarck, .34; Bottineau, .38; Bowbells, 1.29; Devils Lake, .56; Dickinson, 1.52; Dunn Center, 2.00; Ellendale, .15; Fessenden, .86; Grand Forks, .18; Langdon, .11; Larimore, 1.00; Lisbon, .18; Minot, .16; Napoleon, 1.60; Pembina, .16; Wahpeton, .09; Williston, .06; Moorhead, Minn., .12.

General Conditions.

The weather bureau report on general weather conditions today said:

The Dakota low pressure area has advanced to Manitoba accompanied by general rains in North Dakota and portions of the adjoining states. The rains in North Dakota vary from light to excessive, the heavy falls being quite general over the west portion of the state. It is cooler over the Plains States but it continues warm over the Mississippi Valley. The weather in North Dakota will be partly cloudy and somewhat unsettled to night and Friday with somewhat cooler in the east portion tonight.

The Missouri river stage stood at 8.3 feet today, a rise of a foot in two days.

POLICE SILENT

MURDER ARRESTWill Not Divulge Case Against
William Gummer, Hotel
Clerk

Fargo, June 16.—The case against William Gummer, night clerk of a local hotel where Miss Marie Wick, 19, Grygals, Minn., was murdered early Tuesday, June 7, will not depend on finger prints, Wm. Green, states attorney for Cass county, said today. Gummer was arrested yesterday charged with first degree murder in connection with the case.

Finger prints found in the room in which Miss Wick was murdered have proved to be unsatisfactory, Mr. Green said. Authorities are withholding details of the case against Gummer until the hearing is held.

CLAIMS BREAD
NOT REDUCEDSenator Capper Charges Prof-
iteering

Washington, June 16.—Profiteering on the part of the bakers of the nation's bread was charged by Senator Capper, Republican, Kansas, in a speech at last night's session of the senate, during consideration of the packer's regulation bill. A vote on the bill will be reached late today. "With nearly 35 per cent decline in the year ending May 15 and maximum decline in the price of flour of 40 per cent," said Senator Capper, "the size of the crust the makers of ten of the leading cities of the country hand the public varies remarkably from a meagre decrease of but 6 per cent in New York to a maximum reduction of only 21 per cent in Boston."

"But I note that in New York where the decline in the price of bread is least the reduction in the price of flour is greater. Boston, far removed from the wheat belt, is the city showing the largest decline in the price of bread. Even out in the wheat country itself the bakers are still exacting high prices."

COMPOSITORS

Boston, June 16.—Newspaper compositors who walked out Monday voted to return to work under the same conditions as when they struck.

REP. MASON, OF
ILLINOIS, DIES
IN WASHINGTON

Washington, June 16.—Representative W. E. Mason, Illinois, died here early today, from heart trouble. Although Representative Mason had

several days his condition yesterday was reported as showing improvement and death came unexpectedly after a sudden relapse. The Illinois representative was 71 years old and formerly was a member of the senate.

JURY IS GIVEN
MITCHELL CASE
THIS AFTERNOONFormer Hotel Steward Charged
with Assaulting E. G.
Patterson

POSITION OF DEFENSE

The case against R. P. Mitchell, formerly steward of the McKenzie hotel, charged with assault on Edw. G. Patterson, hotel proprietor, with a dangerous weapon, was to go to a jury in district court late this afternoon. The hearing of testimony in the case, which began yesterday, was virtually finished at noon, and State's Attorney F. E. McCurdy and Theodore Koffel were to submit arguments.

State's Attorney McCurdy put on the witness stand the following witnesses: E. G. Patterson, Mrs. Patterson, Lillian Hubbard, Minnie Halzenbuler, John Britlin, Clara Olson, Arthur Peterson, Francis Feldman, Carl McGrath, Mrs. Thomas Poole, Mr. and Mrs. William, Mr. and Mrs. William Holbein, William O'Hare, Dr. C. E. Stuckhouse, Geo. H. Dolan and Gusie Peterson.

No Irons Used, Claim.

Koffel, Mitchell's attorney, maintained that while Mitchell had hit Patterson he had not hit him with pastry irons, as charged. The irons and a felt hat worn by Patterson, through which a neat cut was made, were exhibits in the case. Mitchell, J. Galloway and Morris Paul were placed on the stand for the defense by Koffel.

A jury in a district court case, which reported Tuesday evening, found J. W. Pauley, and his son, Pearl, guilty of manufacturing, intoxicating liquor. The trial was short. The Pauleys were arrested by the police last winter, it being alleged by the police that they found them in the act of making alcoholic liquor in their home here. Sentence was deferred.

In the case of Axel Johnson, charged with manufacturing liquor, the jury found the defendant not guilty. There was question in the jury's mind, it was understood, that the beverage which Johnson was said to have given away was intoxicating liquor.

A jury also acquitted Mrs. Willis Bryan, charged with the unlawful sale of intoxicating liquor.

When Robert Mitchell, charged with rape, was called in court he was not present. It was stated he had put up bonds of \$2,000, part in cash and part with an individual as surety. The surety was ordered to bring the defendant into court or default on the bond.

An information was filed against Leo Schaefer, charging him with the sale of intoxicating liquor. He was given time to get an attorney. The assault and battery case against Arthur Desmond and Charles Stearns was continued until afternoon.

Several other cases are on the criminal calendar, but none of them are expected to take any length of time to try except the J. W. Brinton case, starting June 23.

HEALTH MEETING
IS DISCUSSEDLuncheon Held Today to Discuss
Mass Meeting

Representatives of civic and business organizations, and members of the clergy and the press attended a luncheon at the McKenzie hotel today, given by North Dakota members of the American College of Surgeons. The gathering was for the purpose of explaining the coming public health mass meeting to be held at the auditorium, June 24th at 8 P. M.

"As soon as the people of this community realize that this is their meeting; that practical talks on better health will be given in simple language, the auditorium will not hold the crowd," declared Judge A. M. Christianson. "Bismarck is to be congratulated on securing such a gathering of surgeons, and should show their appreciation by filling every seat in the house on the night of the twenty-fourth."

POSTMASTERS
ENDORSE CIVIL
SERVICE PLANState Convention For Towns and
Bill Removing Term
Limits

GREET POSTMASTER-GEN.

A resolution endorsing the Townsend bill, pending in Congress, to place first, second and third year postmasters in Civil Service and remove the term limit was adopted by the state convention of postmasters, in session here today. Postmasters were placed in Civil Service by an executive order of President Wilson, but the terms were left at four years. The chief aim of the Townsend bill, according to the postmasters, is to remove the term limit.

A telegram of greeting was dispatched to Postmaster-General Will H. Hays, in which his proposal to "humanize" the postal department was praised.

Dr. Redmond A. Bolton, of Jamestown, gave the president's address at the morning session. He highly praised the new postmaster-general, and urged all postmasters to have service to the public as their watchword in handling the affairs of postoffices in North Dakota.

J. T. Boykin, dean of postoffices inspectors of the St. Paul division, who was sent to the meeting as representative of the postmaster-general, gave a chart lecture and presided when the question box was opened. Mrs. L. L. Diehl, of Dunn Center, gave a reading.

A greeting was sent to the Tri-State Postmasters' convention in the Twin Cities. Announcement was made that the national convention of postmasters would be held in Washington, Oct. 12, 13 and 14. M. L. Vick, of Sheyenne, secretary of the North Dakota association, in chairman of the executive committee of the national association.

Governor Frazier was on the program this afternoon, and following other talks and election of officers a banquet was to be held at the Grand Pacific hotel.

STOLEN AUTOS
BEING SOLD BY
U. S. GOVERNMENT

P. J. Doyle, United States marshal, in Bismarck today, said he would complete the sale of all automobiles captured in North Dakota from booze runners who are held on federal charges, except in two or three cases where parties intervened, claiming the machines were stolen.

Mr. Doyle sold a Buick 1918 roadster for \$250 here yesterday in an auction sale in front of the Motor Sales Co. There were three bidders, the car being purchased by J. C. Anderson. A deputy U. S. marshal is selling one car at Jamestown today. Mr. Doyle will sell five at Carrington Friday and there will be sales at Lidgerwood, Bottineau and Crosby this week.

CONGRESS LOCKS
ON NAVY BILL

Washington, June 16.—Conferences between the senate and house on the naval appropriation bill ended today in a deadlock and the \$494,000,000 bill, with the Borah disarmament conference amendment, was taken back to the house for action.

FOUR CULVERTS
WILL BE BUILT
IN THE COUNTY

Bids will be received on four concrete culverts in Burleigh county, the county commissioners decided at a meeting here.

One is at Christiansia, another between Trygve and Sibley Butte, another between Naughton and Croft, and a fourth between Harriet and Wink. Bids will be received on July 5.

The commissioners, at their meeting, decided to open a road in Naughton township, beginning on the north side of the township, between sections 4 and 5, running due south for six miles.

Train

Omaha, Neb., June 16.—Five persons are known to have been killed and 27 injured, a number seriously, when Chicago and Northwestern passenger train No. 606, Lander, Wyo., to Omaha, was wrecked last night by the collapse of bridge over a creek near Whitney, Neb.

A cloudburst caused the bridge to give way, General Superintendent Dickinson, of the Northwestern, said. The engine cleared the bridge but the baggage and mail cars plunged into the bank while the chair car was thrown into the water.

The number of known dead, at first reported as four, was later increased to five, when E. Schuyler, mail-clerk, of Shadron, died of injuries. All of the dead and injured, Shadron advices said, were found in the smoker and baggage cars.

ANTI-SALOON
LEAGUE OPENS
FIRE ON BILLHits at Wisconsin Measure Per-
mitting Making of Home
Brew

Madison, Wis., June 16.—The Blaine dry enforcement bill is attacked by the Anti-Saloon league today in an official statement, which declares that "without the Olson amendment it is weaker than the present Mulberger law," and may serve "as a camouflage under which liquor is made and sold."

Governor Blaine Monday attacked the Olson amendment prohibiting the manufacture of home brew as "intolerable espionage on the home which fritters away public money on citizens who have no wrongful intent." He called on the assembly to kill the amendment when it is voted on tomorrow.

Little words are the cause of all the trouble. The Anti-Saloon League said: "The Volstead act forbids the manufacture, the Olson bill does this also, this bill simply forbids the 'manufacture for sale' of moonshine liquor."

LABOR DEMANDS
CONGRESS ACT
IN SHIP CASEWant Investigation of Alleged
Lockout of Seamen

Denver, June 16.—The American Federation of Labor today by resolution called upon the United States senate to adopt the LaFollette bill to make an investigation of the "nation-wide lockout of seamen."

The convention adopted a resolution calling for a congressional investigation into conditions in the cotton mills of the south. Every assistance was pledged by the Federation of United Textile Workers, now conducting a strike of more than 15,000 workers in these mills.

The resolution introduced by the International Seamen's Union declared that a "combination of European and American ship-owners, aided by the United States Shipping Board, have up to this moment been busy thwarting the American people in their legitimate desire and purpose to share in the overseas commerce and in building for America's sea power comparable to the American seaboard."

PEOPLE RUSH
TO GET SEATS
FOR AL JOLSON

There was a big rush for the best seats for Al Jolson at \$3.85 per, when the seat sale opened yesterday at Harris and Company.

Al Jolson has been reported as saying that "there is on town in the west that'll never miss Bismarck, because I like to play to the kind of audience they have there." Indications from the early seat sale were that he will have a packed house.

There were still many good seats left this afternoon, although a big lot had been made in the center seats in the lower floor. A long line was waiting when the seat sale opened.

ROTARIANS AT LUNCHEON AID SWIMMING POOL

Auction Results in Addition of \$55.50 For the Elks Pool Fund

"JOE" DOYLE AUCTIONEER

Fargo Rotarians Visiting City Aid in Fun at Weekly Luncheon

"Joe" Doyle, United States marshal and Fargo Rotarian was the good angel of the Rotary White Elephant sale atop the McKenzie hotel this noon. He attended the Roof Garden luncheon with "Pete" Hardy of Fargo, another Gate City Rotarian, and his ability as an auctioneer being so well known in this state, he was pressed into service and did a fine job. The sale netted \$55.50 for the swimming pool besides affording a lot of amusement for the weekly luncheon.

Mr. Hardy, Fargo's postmaster, Mr. Doyle and Mr. Allen, representative of the American College of Surgeons, were guests of honor. All of them made brief addresses.

Mr. Allen, who is here in connection with the meeting of the North Dakota section of the American College of Surgeons, urged the support of the Rotary organization in the public meeting of the American College of Surgeons which will take place at the Auditorium the evening of June 24. Some of the most prominent physicians of the nation will be present and will discuss subjects of general interest.

The American College of Surgeons has enlisted energetically in the public health movement. The whole popular view point has been changed. The aim now is to impress upon people the prevention of disease. The health of the community is paramount in the campaign under the direction of this distinguished association of surgeons.

It is hoped that many physicians of the state will avail themselves of the clinic that will be held during the two day sessions. Special arrangements have been made at the hospitals to accommodate the professional men of the state. The facilities in Bismarck for such a meeting are second to none in the state and every civic agency is putting forth its energies to make this meeting a great success.

The Rotary and other organizations have been enlisted in the movement to put the meeting of the American College of Surgeons over big.

MINUTES OF THE PROCEEDINGS OF THE BOARD OF CITY COMMISSIONERS, MONDAY EVENING, JUNE 13, 1921.

The Board of City Commissioners met in regular session Monday evening, June 13, 1921, at eight o'clock P. M. There were present Commissioners L. S. Craaswell, Thompson and President Lohr. The minutes of the previous meetings were read and approved. The report of the City Auditor on water, milk and cream for the months of April and May was read and ordered printed in the Bismarck Tribune. A report on the outcome of the Hughes Electric Co. rate case was submitted by Mr. F. O. Helstrom. Mr. Helstrom also presented a bill for \$300.00 for services rendered. This was referred to the city attorney. The city attorney was instructed to institute suit if necessary to collect money due the city by Burlington County on account of Mother's Pension Fund. An ordinance declaring outthrusting privies, cess-pools and vaults a nuisance and providing for the abatement of the same was read for the second time. On motion of Commissioner Thompson, duly seconded, the ordinance was adopted. An ordinance declaring sandpits a nuisance and prohibiting the opening of the same was read for the second time. On motion of Commissioner Thompson, duly seconded, the ordinance was adopted. The city auditor was instructed to send all owners and operators of sandpits a copy of such ordinance. Commissioner Thompson moved that the city auditor send a bill in the Hughes Electric Co. for \$442.83, the amount paid for electricity at the city hall from September, 1920 to May, 1921, inclusive. Mr. Edw. Cox, attorney for the Hughes Electric Co., explained that in the future the city would be billed with light for the city hall but that this item would be marked paid. Commissioner Lohr seconded Commissioner Thompson's motion. On roll call the motion passed, all members voting aye. Commissioner Lohr moved that the city auditor issue warrants on Filing District No. 2 Fund for \$4,600.00, payable to the Hancock Bond Co. due on or before November 1, 1921, to take up warrants held by them and past due. The motion was duly seconded and carried. The city attorney was instructed to draw up necessary resolutions for calling a special election for voting on the issue of \$15,000 bonds for fire truck, \$10,000 bonds for building addition to the Detention Hospital, and \$5,000 bonds for building and incinerator. On motion of Commissioner Lohr, for the Board of City Commissioners, adjourned to meet again Monday evening, June 20, 1921, at eight o'clock P. M.

The Beginning of a Bank-note

Little Marcia's baby dress though made of the finest linen was ultimately worn thread-bare. One day it landed in the rag bag and was sold to the junk dealer. When the rag sorter touched the discarded garment he detected in a flash the fine quality of the flax and set it aside for a journey to the Bureau of Engraving and Printing at Washington. Eventually it became legal tender—a bank-note. Just how is told in one of the beautiful booklets about Our Government which we are sending each month to those interested.

POPULACE IS SULLEN OVER OCCUPATION

Feeling Against French is Most
Bitter in Cities of Rhenish
Prussia

Dusseldorf, Germany, June 16.—The anti-occupation sentiment is much stronger in Dusseldorf, Ruhrort and Duisburg, the cities of Rhenish Prussia recently occupied by the French than in Mayence, Coblenz and Cologne, which also have been under foreign occupation for more than two years by the French, Americans and British.

As one crosses from the left bank of the Rhine and enters recently occupied territory the mood of the population becomes more sullen, their behavior more aloof and their hatred much more pronounced.

The reason may be that the French are occupying that part of the right bank of the Rhine that they hold nearest the Ruhr in real military fashion and the occupation is much more severe than that on the left bank.

Hatred of Population

The hatred of the population is directed more especially against the French and children are being brought up in a constant terror and undisguised scorn of the occupying forces which gives but little promise that the real brotherly love between French and Germans will be achieved with the coming generation.

Occupations bring out the witty sides of the occupied populations and books have been written about the good jokes which the Belgians treasured on the Germans while the latter were ruling their country by force of arms. The Germans are now in the same position toward the French as the Belgians were toward them and they have not failed to take advantage of the situation and a sense of humor has been developed among the Germans as an occupied country which they totally lacked when they were the occupying forces.

Refuse to Speak French

The absolute refusal to speak French even by persons well acquainted with the language is one of the most common ways in which the men show their dislike for the French military men. The correspondent walked into a cigar store, the other day, while a French officer was attempting to make the woman in charge understand the brand of cigarettes he wanted. She seemed absolutely at a loss to understand him when the correspondent translated the officer's request in English. After the officer had departed she told the correspondent in purest French: "I understood him the first time but I would not give him the satisfaction." Many shopkeepers have forsaken good sales by the same reluctance to speak French.

Boycott Women

Few women in Dusseldorf, Ruhrort or Duisburg will be seen in the company of a uniformed French soldier or officer in the streets. The few who transgress the unwritten law are promptly catalogued at the German city headquarters and are marked for reprisals. In some cases the difficulty is avoided by the occupying swain adopting civilian clothes, which seems to be satisfactory all around.

In the wine cellars of the most fashionable restaurants of Dusseldorf, there is a corner called "the occupation corner." There are deposited all the bottles of wines which have been refused by the German customers as having soured owing to defective corks. When a party of French officers puts in an appearance they are always served with two or three bottles of the special wine which they promptly reject, as a Frenchman's taste for wine is infallible, but by the time a real bottle of wine is reached "the French cannot taste the good of it" as one headwaiter put it.

The entrance of a party of French officers in a beer garden causes the temperature to descend to the freezing point and surrounding tables to be vacated as promptly as they were by Belgians in their cafes when German officers came marching in. Overt insults are avoided as carefully as they were in Belgium but acts in contravention with the decrees of the occupying forces are treated by the French as they were by the Germans.

FEDERAL BOARD TO OPEN DRIVE TO REACH EVERY EX-SERVICE MAN WHO IS ENTITLED TO GOVERNMENT AID

District No. 10 of the Federal Board for vocational education will send a squad of men into all sections of the state to place disabled men in training. This squad will be able to make medical examinations, certify to the official papers, advise men as to training, and give them transportation to schools. All this will be done while they are in the different localities which they will visit.

They will be in Bismarck on June 21 and 22, to interview all disabled ex-service men from Bismarck and vicinity including men in the counties of Dunn, Hettinger, Mercer, McLean, Oliver, Morton, Grant, Sioux, Burleigh, Emmons, Logan and McIntosh and all disabled men in these counties should make it a point to be in Bismarck on that day. These men should bring with them all official military and government papers which they may have in their possession as these are necessary in order that the squad may inform them as to whether or not they are eligible for training.

This means that the board is coming to the man as nearly as possible. All ex-service men to whom this notice comes should inform other whom

in Belgium. Fines are imposed in marks.

The Belgians and the French suffered occupation of territory more stoically than the Germans and with less self pity. The owner of the palatial home recently requisitioned in Dusseldorf for the General Staff of General Degoutte, the French Commander, wept bitter tears as he departed from his house.

they think may be interested, telling them of the facts. Every disabled ex-service man who is hindered in carrying on his pre-war occupation should receive training so that he can compete with others. This squad is out to see that such men get into training. If each man will give his assistance, hundreds of disabled veterans in North Dakota should go into training.

Want to Reach All.

The coming of these representatives of the Federal Board for vocational education on the day mentioned will, it is hoped by those concerned, reach the attention of every man who might have a claim against this department of the government and that the visit will mean for each man the following things:

1. If any man has not yet made application for vocational training such application will be made for him on the spot. He will immediately be examined by a physician of the board and his case rated. The case will be

passed upon by George E. Hardy, eligibility officer of District No. 10, and who is a representative of the central office of the board at Washington, D. C., and if found eligible will be placed in training immediately, if he so desires.

2. Any man who has made application for training but whose case has not been completed because of lack of certain papers may have these papers completed on the spot and his case acted upon and decided. If he is found eligible for training he will be placed in training immediately if he so desires.

Decide Them Immediately.

"It is our purpose," the announcement says, "to decide all cases possible while the representatives of the board are in North Dakota. This will save the time required previously in sending cases to the Minneapolis office for rating, completing of papers, medical examination and decision. We hope to be able to give a rating to any man who comes before the squad."

Have you a disability incurred in, or traceable to service? If you have don't forget to be in Bismarck on June 21 and 22, 1921.

Government lodging requests will be honored at Grand Pacific, Bismarck and Van Horn hotels.

Meals requested at Grand Pacific, Minute Lunch, Van Horn Cafe, and Annex Cafe.

beat back the first Russian invasion of Austrian territory at Gorlice on Aug. 28, 1914, and carried the war into Russia.

Petroleum —An Industrial Pivot

FROM the back of a sheep to the back of a man, wool passes through dozens of processes and machines, some of which were made possible, and all of which were shortened, by some product of petroleum.

So delicate is the adjustment of this machinery that from the cams moving at a rate of 350 revolutions per minute, to the flying spindles, whose revolutions per minute exceed 12,000, every part must be in unison. For, should one part be retarded a little, and another part speeded up unduly, through faulty lubrication, there would be a strain on the fabric, and a break.

The seriousness of such a break is seen when it is understood that the severing of a single thread will bring the giant loom to a standstill instantly.

This is but a single example of the problems constantly being brought to Standard Oil Company (Indiana) lubricating engineers for solution, and emphasizes the necessity for the minutest accuracy on the part of these specialists in drawing specifications for special lubricants, and the need for extreme accuracy on the part of the manufacturing department in producing lubricants to meet these specifications.

It illustrates how highly specialized is the branch of industry which engages the attention of the Standard Oil Company (Indiana), and the degree of enthusiasm for perfection which must prevail throughout this organization.

And this enthusiasm does prevail. Harmony and concentrated interest is ever present throughout the organization of 25,000 men and women, every one of whom, from the Chairman of the Board of Directors to the lowliest recruit, is bending every effort to do his part in the production of useful products, and to have each of a superior standard of fineness.

RECOGNITION FOR BISMARCK
In selecting Bismarck as the place for the North Dakota meeting of the American College of Surgeons, the position this city has in the medical world has been recognized and the least the city can do is to exert every effort to make the sessions, the first of their kind in this state, a signal success.

Bismarck has two of the finest hospitals in North Dakota and its physicians are known far beyond the borders of the state. In its medical fraternity and hospitals, the capital city has two assets whose value to community health and general welfare cannot be overestimated.

The opportunity to show appreciation presents itself on June 24 when a public meeting will be held at the Auditorium, under the auspices of the American College of Surgeons. This meeting is for everyone. There will be no admission charged and the message is a vital one for it has to do with public health and the prevention of disease.

When the nation began its draft for the world war, the health of the nation was given more publicity than ever before. It became a question of intense discussion. People began to realize what a great field there was for the kind of work the American College of Surgeons have started so militantly.

It is an old adage and probably somewhat trite, but none the less true, "that the wealth of a nation lies in the health of its people." The happiness of the people is dependent upon the same condition, and the surgeons, who have embarked upon this campaign of better health, should have the heartiest support of the great body of men and women who give too little thought to the great fundamentals underlying the better health movement.

The Auditorium should be packed to hear the distinguished surgeons discuss in popular terms the part the public can take in the crusade for a better civilization through a more careful attention to the human machine.

Get behind the local committee and let Bismarck come through 100 per cent as she always does when civic duty beckons.

Germany has 12 per cent beer. Who says statistics aren't interesting?

YOU
Did it ever occur to you that the story of your life would make a thrilling novel or movie?

Sometimes your wife gets dull and boring—which is a wise provision of Providence, for it's only by contrast that you get thrills and excitement.

A steady diet of excitement would become as monotonous as a constantly drab existence.

Have you ever narrowly escaped death?

Have you had an interesting romantic love affair?

Have you had a great sorrow, a sudden reverse of fortune or any other great loss?

Those are the high spots of a thrilling movie—and the reason why the story most interesting to you is one in which you can imagine yourself fitting in quite naturally as one of the characters.

Study the faces of people you meet. If you had mind-reading powers, you'd find startling emotions and strange existences behind their mute face-masks.

The plain human being—You, He and She—are the most interesting things in the world.

For instance, peek into the life of a real person, Jim.

He was eight years old when he landed with his family from Wales. At 9 he was shining shoes, running errands and ringing an auctioneer's bell in a Pennsylvania iron town.

Ten years later, Jim was an iron puddler at Sharon, Pa. Stripped to his waist, sweat rolled off him as he toiled before a blast furnace.

That immigrant boy—Jim—is now James J. Davis, secretary of labor.

Thrilling illustration of the unlimited opportunities of America and of the romance of one individual's life.

No doubt those early days in the iron towns seem to him the most interesting of his career.

When you are old and look back, what period of life will appeal to you as the most thrilling and romantic? The present?

Rubber dresses are the latest. Will the women stretch the skirts?

ARMY OF ANTS
Hordes of ants, eating tunnels through wood, threaten to destroy all interior woodwork of the livestock exchange building in Wichita, Kas.
In a battle of wits with man, the ants made sawdust and used it to bridge sticky flypaper spread to halt them.
We are conquering flies, moths and mosquitoes. Ants don't bother us much. If they did, we'd have our hands full, for scientists say that, next to man, ants have the most intelligence of any living thing. They keep insect-cows, war in armies, and have police and jails.

WATERLOO
The 106th anniversary of the Battle of Waterloo, June 18, recalls that the French under Napoleon were whipped by allied British and Prussian armies.
A century later there was a new line-up. British joined with the French to fight the Prussians. How will nations be lined up 106 years from now? Let's hope that world peace comes by then and that in the year 2027 the world will be relieved of this worry about how nations are going to ally.

DROP A NICKEL
Four hundred million nickels were dropped by Americans into slots of pay-station telephones last year.
The telephone is one of the most marvelous inventions, yet we're all so used to it that it's commonplace. Novelty soon wears off.

Chicago aquarium president says looking at a group of fish soothes the nerves. Not if the other fellow caught 'em.

EDITORIAL REVIEW
Comments reproduced in this column may or may not express the opinion of THE TRIBUNE. They are presented here in order that our readers may have both sides of important issues which are being discussed in the press of the day.

ANOTHER OBJECT LESSON
Two drownings in the Red River in one week-end should call attention to the shortcomings of that treacherous and none too cleanly stream as a bathing pool.

For any but really expert swimmers, the Red river is a dangerous place to swim, and even those who have nothing to fear from its current and undertow surely cannot find it very attractive with its mucky bottom and its very doubtful purity.

Yet it is the only place Fargo has to offer, these warm summer days. Those with automobiles can take a 45-mile trip to the Minnesota lakes to enjoy good swimming facilities. Those without cars, can swim in the Red or not at all.

It isn't a situation that a city of 25,000 should long tolerate. Warnings seem to have little or no effect. Fargo has had scores of object lessons in the dangers of the Red river during the last few years, but every hot summer day finds a goodly number of boys and youths swimming in the river and taking the same chances that have proved fatal so often in the past.

The number of such tragedies during the season can be figured with almost mathematical precision. They will average about so many to the month, and it would be a safe prediction to make that at least one or two and possibly several more lives will be lost in the Red river before the present summer ends.

Possibly the city commission or the park board would be warranted in restricting swimming to certain parts of the river and having guards with-in call on Sundays and holidays, if funds were available, but the swimming pool is the only permanent solution.—Fargo Forum.

GETTING RID OF DUPLICATES

A recent bride had the usual experience of those who have large weddings—she received many duplicate gifts. Some of these she exchanged, but others were monogrammed, and of course she couldn't exchange those.

"I know what I'll do with them," she confided to her husband. "I'll save them for future wedding presents. Just take them to the silver-smith's and have my monogram rubbed off and the bride's put on. It will be quite a saving. I know so many people who are going to be married this year."

And it did work quite well for a while. By the time her dearest enemy was married the stock of monogrammed white elephants was greatly depleted and the bride finally decided to pass on a mongrel receptacle whose exact status she had never been able to ascertain. It was too high for a sugar bowl and too broad for a flower vase.

"Maybe she'll know what it's for," she told her husband. "She likes these queer gingerbread things, anyway."

So down she went the next morning with the bulky silver object neatly packed in a large cardboard box.

The head of the marking department examined the nondescript specimen critically for some moments, then shook his head.

"I'm sorry, madam," he said at last apologetically, "we can't do that over. It's been done four times already."

"I'll bet it started as a loving cup," said the bride savagely, as she selected a shining new cake knife.—New York Sun.

ADVENTURES OF THE TWINS
By Olive Barton Roberts

You can make spring by just coming out of your hole on Groundhog Day and not seeing your shadow.

There were more letters, but, as Sprinkle-Blow said, so many of them seemed to be about the same thing. They no doubt were pretty much alike. But Nick had noticed one from Wally Woodchuck and so the fairymaid said to read it, too.

There isn't any use in repeating it all to you, my dear, because it was as long as your arm and so full of complaints that Sprinkle-Blow said he felt like a regular adjustment department. You may not know what that means any more than Nancy and Nick did, but your Daddy may, particularly if he's had to pay the gas bill twice.

Well, Wally Woodchuck, otherwise Mr. Groundhog (you know he has two names), said that everybody in the neighborhood was down on him. "I tell 'em I don't make the weather," said he "but they don't believe me. Just yesterday Chris Crow said to me, 'Why Mr. Man knows you make the

weather, Mr. Groundhog. He says you can make spring by just coming out of your hole on Groundhog Day and not seeing your shadow. If you'd only stay in your hole you wouldn't have to even look at your shadow, and I'd like to know, when you're so lazy 'n all, why you have to come poking out just for one day anyway and spoil the weather for six weeks."

"I couldn't talk to him, Mr. Sprinkle-Blow, for his voice is louder 'n mine. So won't you please take Jack Frost out of the neighborhood. He's most disliked 'round these parts."

"Yours very worriedly,

"GRUBBY GROUNDHOG."

"There it is again!" declared Sprinkle-Blow. "Something must be done at once."

NEW NICKLES ARE NEW HOBBY OF RICHEST MAN

BY E. M. THIERRY

Tarrytown, N. Y., June 16.—Hobbies are keeping the richest man in the world alive.

John D. Rockefeller has two.

He gives a brand new nickel to every man, woman and child he meets—including his chauffeur, his caddy and the guards at Pocantico Hills.

He plays golf every morning except Sunday.

These are the things that give him his only real enjoyment and add zest—and perhaps years—to his life.

Rockefeller is getting feeble. But it is significant of his tenacity of spirit that he has discarded the three-wheeled bicycle on which he used to be pushed around his private golf course.

Every day he walks the entire distance of his nine-hole course.

And the other day he made the round in 42 strokes!

Arthur Lyons, one-armed professional of Briarcliff Lodge Club, who played a foursome with John D. as his partner—the others being Rev. Dr. Cornelius Woolfkin, pastor of the Fifth Avenue Baptist Church, and Miss Martha A. Jamison of Pittsburgh—is authority for the low score.

If you want to see how the richest man in the world looks riding his golf hobby, come to Tarrytown and put yourself outside the iron gate of the 6,000-acre estate nearest to the adjacent Sisters of Mercy orphanage.

A hundred yards from the gate stands a little red flag on the green of Hole No. 8. From there it is a long drive to the last hole up near the house, which is hidden by shrubbery.

Promptly at 11 o'clock every morning there appears a little knot of attendants, perhaps a player-guest or two—and a little thin man wearing long, white, baggy trousers, a white shirt with sleeves rolled up, tennis shoes and a large white cap pulled down over his white hair.

That is John D. Rockefeller.

"It's amazing how he can drive the ball," said a guard at the gate near Hole No. 8.

"Yes, he's getting feeble—but he persists in going 'round the course. And he's regular as clock work. You could almost set your

WOMEN WHO CANNOT WORK
Read Mrs. Corley's Letter and Benefit by Her Experience

Edmund S. C. Corley, "I was run down with nervousness and female trouble and suffered every month. I was not able to do any work and tried a lot of medicine, but got no relief. I saw your medicine advertised in a little book that was thrown in my door, and I had not taken two bottles of Lydia E. Pinkham's Vegetable Compound before I could see it was helping me. I am keeping house now and am able to do all of my work. I cannot say enough for your medicine. It has done more for me than any doctor. I have not paper enough to tell you how much it has done for me and for my friends. You may print this letter if you wish." — ELIZABETH C. CORLEY, care of A. P. Corley, Edmund S. C.

Ability to stand the strain of work is the privilege of the strong and healthy, but how our hearts ache for the weak and sickly women struggling with their daily rounds of household duties, with backaches, headaches, nervousness and almost every movement brings a new pain. Why will not the mass of letters from women all over this country, which we have been publishing, convince such women that Lydia E. Pinkham's Vegetable Compound will help them just as surely as it did Mrs. Corley?

with Great Britain. The vast majority of the people of Ireland were not represented in the parliament that bludgeoned through the infamous act binding Ireland to Great Britain. It was passed against the will and in spite of the protests of the Irish people who were prevented by military terrorism from resisting it. No Catholic, no Presbyterian, no Methodist, in fact no representative of any other religious body save those gilled with the Church of England had a voice of a vote in the Act of Union. And that, notwithstanding that the religious bodies outside the Church of England represented three-fourths of the population of Ireland.

Gladstone referred to the "Act of Union" as the blackest and foulest transaction in the history of man; and Macaulay called it the union of the shark and its prey. Nor is there any moral force in the so-called union of Ireland and Great Britain. On this point, I again quote Mr. Gladstone: "Union with Ireland has no moral force. It rests on no moral basis. That is the line I would always take were I an Irishman. That is the line which, as an Englishman, I now take."

And as to the familiar "religious" argument: there is no such question involved in the Irish controversy; that is, in the sense that the Catholics of Ireland undertake to control the religious worship of any non-Catholic. The only religious issue is that introduced by the British government even before its notorious activities in putting through the "Act of Union." On that occasion it did not hesitate to bring in the "religious" question when it served its purpose to disfranchise a nation. And ever since it has carefully fostered the "religious" question to strengthen its own position and to maintain division and discord amongst the people of Ireland.

Ireland is separate and distinct from Great Britain; separate geographically as well as in ideals and traditions. It has no necessary connection with Great Britain. The Irish Republic represents a government established by the will of the people of Ireland, substantially declared. For us to deny it recognition would be to deny America. It would mean a denial of the doctrine proclaimed by Jefferson and approved by Washington and Webster and Lincoln; the repudiation of the great principles set forth in the Declaration of Independence.

P. E. BYRNE,
President Local Branch American Association for the Recognition of Ireland.

SHE KNOWS!
When brother Bob came home from school, An' pretty soon got awful sick, Ma was as scared as he could be. Said: "Get the Doctor mighty quick!" But Grandma wasn't scared a bit. Just hustled Bobby off to bed. "He's been a learnin' how to smoke. That's what's the matter, Grandma said."

When brother Jim came home one night, An' staggered to th' bedroom door, An' missed th' bed about a foot, An' set right down upon the floor, Ma thought that he had got a spell, An' mebbe'd die—his face was pale, But Grandma only smiled an' said "He ain't been drinkin' ginger ale."

When sister Sue began to primp, For hours before th' lookin' glass, An' do her hair a dozen times, Before she 'lowed that it would pass Ma 'lowed she wasted all her time, An' wondered why she acted so, But Grandma smiled and softly said "At last our Susan has a beau."

When I came home a little late, With dampened clothes, and shoes half laced, An' mobie half th' buttons off, From both my underwear and waist, Ma says: "What rowdies some boys are, To fight this way!" an' hunts a stick, But Grandma only smiles an' says "He's been a swimmin' in the creek."

GETTING ALONG GOOD.
Women are as great sufferers from kidney and bladder ailments as men. Foley Kidney Pills help rid the blood stream of impurities that cause rheumatic pains, backache, swollen, aching joints and stiff, painful muscles. Mrs. Carey, Box 91, R. F. D. No. 2, Middleton, N. Y., writes: "I had kidney trouble ever since I was a little girl, but I am getting along good since I have taken Foley Kidney Pills." They act immediately and help restore the kidneys to healthful activity.

FEAR FOREST FIRES IN MINN.

Conditions Said Ripe For Serious Damage

St. Paul, June 16.—The forest conditions as regards fires is the most dangerous since 1918 in the burned over district north of Duluth, according to W. O. Cox, state forester, today. They are more tourists in the forest section of the state than ever before, he said, and in camping along the road there is danger of starting fires.

There is a rank growth of weeds, making the conditions especially dangerous for a rapid spread of fire. At present the fires are well under control, Mr. Cox said.

SURPRISES IN STILLMAN CASE

Poughkeepsie, N. Y., June 16.—Counsel for James A. Stillman, centered his court fight for divorce today upon testimony regarding the relations of Mrs. Stillman, with Fred Beauvais, the part-Indian guide named by the New York banker as co-respondent.

Shortly after noon they surprised Mrs. Stillman and her attorney by producing four witnesses said to have come from Canada.

MARKETS
BULLISH REPORTS
Chicago, June 16.—Bullish crop reports led to a sharp upturn today in the price of wheat. According to a leading expert the prevailing conditions in South Dakota were such as would be likely to make the black rust plague develop. Another well known authority reported that the wheat crop in Indiana and Ohio showed huge areas that have suffered permanent injury. Opening prices which carried from 1-4 to 1-2 cents lower were followed by a rapid rise much above yesterday's finish.

Reports of black rust in Minnesota counted later as an additional bullish factor but subsequent heavy selling of big lots caused a sharp break in prices. The close was weak, 1-2 to 1-4 cents not lower.

CHICAGO LIVESTOCK
Chicago, June 16.—Cattle receipts 11,000. Generally steady. Bulk beef steers \$7.50 to \$8.

REMARKABLE REMARKS
SCHOOLS should be a lot less rigorous about their entrance requirements and a lot more so about their requirements for graduation.—John Verle Cooper, University of Chicago professor.

BLAME the newspaper for making the role of the criminal harder today than it was 20 or 30 years ago.—M. C. Elmer, sociology expert, University of Minnesota.

BIG CHIEF IS LEGION BOSS

Only Full-Fledged Indian at Head of an Ex-Servicemen's Organization in America.

Maj. A. B. Welch of Mandan, N. D., is the only full-fledged Indian chief and commander of an American Legion post in America. He is wearing the official dress of a head chief of the Sioux, which he was adopted by some time when he was adopted by their great chief, John Grass, many years ago. He is now the duly elected chief of the Sioux, in addition to his duties as commander of the Gilbert S. Furness post of the Legion at Mandan.

A veteran of the Spanish-American war and a participant in the Mexican border expedition, as well as an authority on customs, sports and ceremonies of the Indians, citizens of North Dakota were eager that Major Welch should lead a battalion of Indians to France. Major Welch volunteered to do so, but his offer was refused by the War department.

Nevertheless, a number of Indians were included in the detachment of men which Major Welch took to France in December, 1917. He served upon the staff of Gen. Hunter A. Liggett and on Armistice day was with the artillery of the Third division, south of Sedan. When he arrived in Germany he was named as officer in charge of civil affairs in the "Colonia" area, which position he held until the divisions came back to the United States in September, 1919.

During the Philippine insurrection Major Welch was a participant in the

MAJOR A. B. WELCH.
capture of Pano, Morong and other towns along the shores of Laguna de Bahin, including the important city of Cebu.

Major Welch and state officials of the Legion will speak at funeral ceremonies for Albert Grass, grandson of Chief John Grass, who was killed in action near Solsona. The Indian hero, who went overseas with Major Welch, will be buried at Union Hall, N. D., with the full tribal rites of the Sioux Nation.

BIG MEN AS LECIONNAIRES
Pershing and Wood Are Numbered Among Members of Posts of Ex-Servicemen.

The American Legion has represented in its membership not only the first and last men to enlist for the World war, but also two of the best known military leaders in America, Gen. John J. Pershing and Maj. Gen. Leonard Wood.

Two Legion posts assert that General Pershing belongs to their organizations. They are the George Washington post No. 1 at Washington, D. C., and Lincoln (Nebr.) post No. 1. General Pershing was on board for the nomination of national commander of the Legion, but declined to allow his name to be presented because of his military duties.

General Wood is a member of General George B. Crook post No. 434 of Chicago. He has spoken at a number of Legion conventions in many parts of the country and has been an active worker for the interests of the ex-servicemen's organization.

NAME LEGION POST FOR HERO
Connellville (Pa.) Organization Honors Memory of Milton Bishop, One of Its Dead.

Ever mindful of their fallen comrades in France, members of the American Legion have named the greater part of their posts in honor of men who made the supreme sacrifice.

When a post of the Legion was organized at Connellville, Pa., it was named Milton Bishop post No. 301, in commemoration of the heroism of the heroism of

Mr. Bishop, who was killed in action.

ATKINSON-COX NUPTIALS SOLEMNIZED IN CHARMING, SIMPLE CEREMONY IN EPISCOPAL CHURCH LAST EVENING

Miss Anne Louise Atkinson, daughter of Mr. and Mrs. T. R. Atkinson, and Mr. Gordon Cox, son of Mr. and Mrs. A. Beecher Cox, were united in marriage at the Episcopal church last evening at 8 o'clock in a beautifully simple and impressive ceremony.

The church was decorated with a profusion of flowers and palms, including peonies, spiraea, ferns and palms. Great bouquets of peonies were set in two large floor vases at the head of an aisle of palms through which the bride and groom approached the altar. Smaller bowls of peonies surrounded the altar, which was banked with ferns and palms. Bowls of spiraea adorned the organ.

As Miss Mary Atkinson, sister of the bride, played the Mendelssohn wedding march, the bride came down the aisle of the church, on the arm of her father. She was charmingly attired in a glistening white organza dress, trimmed in ruffles of the same material and fluted lace. A short net veil was hand-dipped with pearls. The bride carried a shower bouquet of the valley. The bride's only attendant was a string of pearls, the gift of the groom.

Miss Evelyn Staley, the bridesmaid, was given in a pink organza dress and carried a bouquet of pink roses. Miss Mary Atkinson was the maid of honor. Miss Mary was attired in blue organza and also carried a bouquet of pink roses.

Mr. Cox was attended by Ralph Pray, of Valley City, a relative and university associate.

Mrs. George K. Foster left this morning for Chicago, where she will visit relatives and friends.

LEAVES FOR EAST

Arthur Youngman and family, of Dickey, who have been visiting at the

Members of the immediate families of the bride and groom only were present. The out-of-town guests were Mr. and Mrs. A. Beecher Cox, of Valley City, parents of the groom, and Mr. Pray.

Miss Atkinson is one of the city's most charming young women. Miss Atkinson attended Dana hall, Wellesley, Massachusetts, and Mr. Cox is a graduate of the University of Michigan law school.

Mr. Cox came to Bismarck to assume a position in the state tax commission's office and now is representative of the North Dakota Bankers' Association in tax matters in the city and is associated with the law firm of O'Hare and Cox.

Following the wedding the party returned to the home of the bride for a bridal supper. The table decorations were of pink roses, pink predominating in all decorations.

Mr. and Mrs. Cox left on No. 4 for an eastern wedding trip, their exact destination being kept a secret. They will be at home to their friends the last of July, in Person Court.

Mr. and Mrs. Cox left the Atkinson home by way of the back door, taking most of the rice, which was on the kitchen table, with them, and slipping away in an automobile. A number of young lady friends at the bridal shower got into another car and pursued them but their chase was not successful. The train pulled in and the bride and groom could not be found. They had got the porter to let them in on the other side of the car, and avoided a waiting shower of rice. As the train pulled out the window was raised and Mrs. Cox threw her wedding bouquet, which was caught by Miss Ethel Fleming.

John Youngman home left today for an extended visit in the East.

GOOD FOR WOMEN, TOO.

Foley Cathartic Tablets have long been a favorite physic with men. Women suffer as much as men do from indigestion and constipation, and they also require a scientific remedy to keep the stomach sweet, the liver active and the bowels regular. Mrs. Geo. Powers, 84 Winthrop Ave., Revere, Mass., writes: "I have taken Foley Cathartic Tablets and I recommend them to everyone." They banish biliousness, headache, bloating.

INGROWN NAIL

Toughen Skin and Toe Nail Turns Out Itself

A few drops of "Outgro" upon the skin surrounding the ingrowing nail reduces inflammation and pain and so toughens the tender, sensitive skin underneath the toe nail, that it can not penetrate the flesh, and the nail turns naturally outward almost over night.

"Outgro" is a harmless, antiseptic manufactured for chiropodists. However, anyone can buy from the drug store a tiny bottle containing directions.

ROYAL ANNE

"The White Cherry With the Pink Cheek"

THE Royal Anne is the finest cherry grown for canning—firm, juicy, delightfully distinctive in flavor. Royal Anne cherries are the kind used for making those fancy Marachino Cherries.

Preserved White Cherries

5 lbs. cherries pitted 2 quarts water—Boil slowly for 18 minutes, add five pounds sugar and cook until mixture is thick. Pack in jars. To avoid any possibility of mold, sterilize 20 minutes by cold pack method. Canned White Cherries make wonderful salads either with other fruits or stuffed with cheese or nuts, and served on lettuce with mayonnaise dressing.

Royal Annes are on the market for only a short time. Put up a good supply in Ball Mason jars at home. There are so many ways you can use them to add sparkle and variety to your menu—in fruit salads, desserts, pies, ice cream, etc.

The low price of sugar makes home-canning more profitable this season than ever before. You save 1/3 to 1/2—besides getting unequalled quality, flavor and wholesomeness.

Be sure to include Royal Anne cherries in your home preserves.

AT THE MOVIES

THE ELTINGE.

Dorothy Dalton is seen in the sort of a role that made her famous, in an excellent picture, "The Idol of the North," which shows at the Eltinge, tomorrow and Saturday. The outline of the story resembles "The Flame of the Yukon," that vivid story of the Canadian Northwest, in which Miss Dalton thrilled audiences all over the country several years ago by her remarkable personality that seemed to fit exactly into the great out-of-doors and the basic emotions of life. As Collette Brisson in "The Idol of the North," her portrayal will be especially enjoyable as she is again placed in the Canadian Northwest, this time as the daughter of a French-Canadian miner and is left learning the tricks of the trade, she becomes a sensation. Tense situations characterize the picture. Harold Lloyd in one of his best offerings, "High and Dizzy" is also a feature of the same program.
